Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Anatomical Atlas: Illustrative of the Structure of the Human Body In the performance of the duty which has been confided to me, of forming a set of Plates as an accompaniment to the text of the work entitled, Special Anatomy and Histology, by Wm. E. Horner, M. D., but which should, at the same time, be so extended and general, as to be consulted by all desiring the use of a complete set of Anatomical Plates, the present volume is now offered. The utility of drawings in illustration of a purely demonstrative branch, is now too well established to require any argument in its favour. Separated from the centre of instruction, and deprived of the advantages of the Dissecting Room, the ideas once so thoroughly acquired soon begin to fade, and the images once so distinct, become confused and mixed. A recourse to plates, in the absence of dead bodies, is then the only means of refreshing our knowledge. Numerous works, framed with these intentions, have long enjoyed a large share of professional approbation; some from the finished style of their execution; others from some striking feature of simplicity, or adaptation to the wants of medical men. The claim of the present one is to have been selected from the most accurate of these, as well as from the latest Microscopical Observations on the Anatomy of the Tissues; and, where plates were not deemed satisfactory to have been enriched by original drawings, from specimens furnished by the beautiful Anatomical Museum of the University of Pennsylvania. In these instances the cut is marked Wistar Museum, or W. M. In the arrangement of the work, it will...
