A First Statics (Paperback)

By Charles Samuel Jackson

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1907 Excerpt: .case of weight 7 cwts. is hauled up a plane inclined at 40. Find the work done if the coefficient of friction is 0.6 and the plane is 25 feet long. If released at the top is the friction sufficient to prevent it sliding down? 22. A box weighing 450 lbs. is slowly hauled up a rough inclined plane of length 30 feet, the top of the plane being 12 feet above the bottom. If the amount of work expended is 3 foot-tons, find the coefficient of friction for the box and the plane. 23. A box, weighing 240 lbs., is supported on a plane inclined at 40° to the horizon by a rope attached to it and inclined at 20° to the plane. If the coefficient of friction is 0.4, what is the least pull in the rope required to move the box up the...

Reviews

A must buy book if you need to adding benefit. I am quite late in start reading this one, but better then never. Its been designed in an exceptionally easy way in fact it is only after i finished reading this publication where in fact modified me, alter the way in my opinion.

-- **Prof. London Gerlach**

A really great publication with lucid and perfect reasons. I have read through and i am confident that i am going to gonna read yet again yet again down the road. It is extremely difficult to leave it before concluding, once you begin to read the book.
