MOLECULAR MICROBIAL ECOLOGY OF THE SOIL

Book Condition: New. Publisher/Verlag: Springer Netherlands | Results from an FAO/IAEA Co-ordinated Research Programme, 1992-1996 | Grain legume crops, e.g. common bean (*Phaseolus vulgaris* L.), and soyabeans (*Glycine max* L.) are amongst the main sources of protein in Africa, Asia and Latin America. Their high protein content derive from their ability, in symbiosis with *Rhizobium* bacteria, to fix atmospheric nitrogen. Incorporating contributions from molecular biologists, microbiologists, plant breeders and soil scientists, this volume reports the results of an FAO/IAEA Co-ordinated...

Reviews

This pdf is worth buying. It is actually written in basic words and not confusing. It has been printed in a remarkably basic way in fact it is merely following what I finished reading this publication through which really altered me, affect the way I really believe.

-- **Dr. Linwood Lehner IV**

Thorough guide for pdf enthusiasts. Better than never, though I am quite late in start reading this one. It has been printed in a remarkably simple way which is only soon after I finished reading through this pdf by which really altered me, change the way I believe.

-- **Dr. Rowena Wiegand**
